

# Michelangelo: Drawings and poems at The British Museum

Join our **FREE** programme for people with early-stage dementia or mild cognitive impairment and their companions.

This 4-week programme is a chance for participants to discover Michelangelo's drawings, sculptures, letters and poems, created in his later years at the British Museums latest exhibition.

You will be introduced to artworks in the collection and encouraged to respond to the themes using drawing techniques led by the brilliant Artist, Sola Sodeke. At the end of the session there will be a chance to socialise with light refreshments.

The programme is free of charge and all materials are included. No previous art experience is needed. It's all about giving it a go!

- Enjoy weekly creativity
- Make new social connections
- Develop new skills
- Combat memory worries
